

LC Paper No. CB(4)651/13-14(21)
(English version only)

To : Panel on Information Technology and Broadcasting

Special meeting on
Saturday, 17 May 2014, at 9:00 am
in Conference Room 1 of the Legislative Council Complex

As an IT professional in Hong Kong, I support the establishment of a Professional Recognition Framework for the Information and Communication Technology (ICT) industry.

ICT is embedded in all aspects of modern life. The quality of ICT solutions has a direct impact on the wellbeing of the society as a whole. The establishment of a Professional Recognition Framework will benefit Hong Kong not only for the ICT industry, but for all industries, and the society as a whole, in the area of quality of products and services, sustainable development of ICT workforce and overall effectiveness of ICT's applications.

I would urge the Government to take the leadership to establish and promote a Professional Recognition Framework for the ICT industry.

Thank you for your attention.

BIEN Chia Chen Andy
