

ITEM FOR FINANCE COMMITTEE

HEAD 170 – SOCIAL WELFARE DEPARTMENT

Subhead 179 Comprehensive social security assistance scheme

Subhead 180 Social security allowance scheme

Members are invited to –

- (a) approve a 2.8% increase in standard payment rates under the Comprehensive Social Security Assistance Scheme¹ and the rates of allowances under the Social Security Allowance Scheme with effect from 1 February 2017 ; and
- (b) note the financial implications of an extra \$1,031 million each year arising from item (a) above.

PROBLEM

The standard payment rates under the Comprehensive Social Security Assistance (CSSA) Scheme and the rates of allowances under the Social Security Allowance (SSA) Scheme are due for adjustment according to the existing mechanism.

PROPOSAL

2. We propose that, with effect from 1 February 2017, the standard payment rates under the CSSA Scheme as well as the rates of the Old Age

/Allowance

¹ CSSA standard payment rates include standard rates, supplements and the monthly meal allowance under the special grants category.

Allowance (OAA)², Old Age Living Allowance (OALA) and Disability Allowance (DA) under the SSA Scheme be increased by 2.8%.

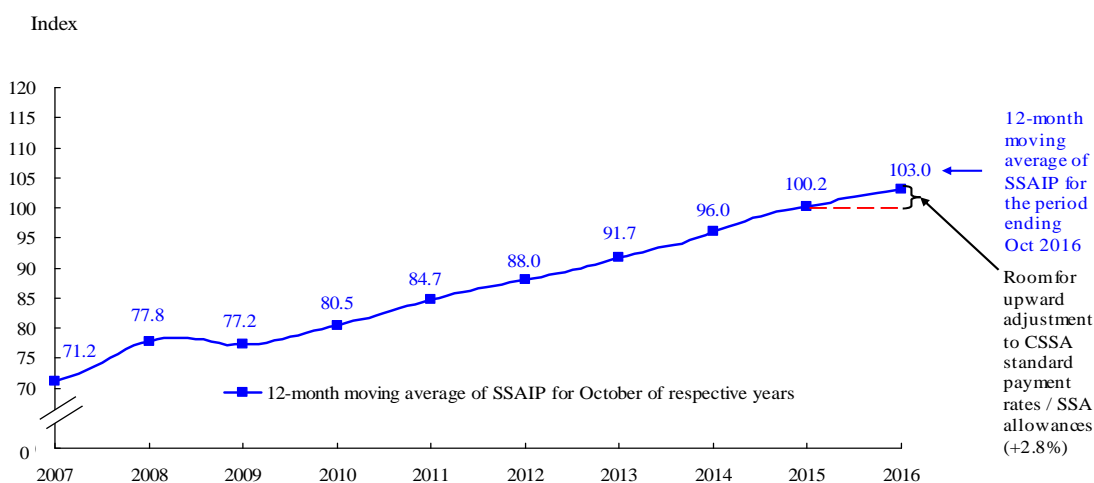

Encl. 1 3. The revised CSSA and SSA rates are set out in Enclosure 1.

JUSTIFICATION

4. In accordance with the established adjustment mechanism, the Government will take account of inflation or deflation as reflected by the Social Security Assistance Index of Prices (SSAIP)³ for the past 12 months (i.e. from 1 November of a year to 31 October of the following year) and adjust standard payment rates under the CSSA Scheme and rates of allowances under the SSA Scheme (namely OAA, OALA and DA) on an annual basis.

5. As shown in the chart below, the 12-month moving average of the SSAIP for the period ending October 2016 registered a cumulative increase of 2.8% when compared with the average figure ending October 2015. Having regard to the SSAIP movements, there is room for an upward adjustment for the CSSA standard payment rates and the rates of OAA, OALA and DA under the SSA Scheme.

Room for upward adjustment to CSSA standard payment rates and the rates of allowances under the SSA Scheme

/6.

² In this paper, OAA includes the Guangdong (GD) Scheme, which provides OAA for eligible Hong Kong elderly persons who choose to reside in GD.

³ The SSAIP is compiled by the Census and Statistics Department (C&SD) on a monthly basis to reflect the impact of price changes on CSSA recipients. It consists of all items covered in Consumer Price Indices compiled by C&SD, except items which are covered by special grants under the CSSA Scheme or provided free by the Government.

6. We therefore propose to increase the standard payment rates under the CSSA Scheme and the rates of OAA, OALA and DA under the SSA Scheme by 2.8% accordingly with effect from 1 February 2017. Subject to the approval of the Finance Committee (FC), the Social Welfare Department will adjust its computer system for implementation of the new rates in February 2017.

FINANCIAL IMPLICATIONS

7. Based on the up-to-date caseload, we estimate that the total increase in recurrent expenditure arising from the proposal will be about \$1,031 million per year, with breakdowns as follows –

	\$ million
(a) 2.8% increase in CSSA standard payment rates	460
(b) 2.8 % increase in OAA rate	101
(c) 2.8% increase in OALA rate	379
(d) 2.8 % increase in DA rates	91
Total	1,031

PUBLIC CONSULTATION

8. On 14 November 2016, we briefed the Panel on Welfare Services on the proposals in this paper. The Panel supported in principle the submission of the relevant proposals to FC.

BACKGROUND

9. An explanatory note on the CSSA and SSA Schemes is attached at Encl. 2 Enclosure 2 for Members' reference. The Government adjusts the standard payment rates under the CSSA Scheme and the rates of allowances under the SSA Scheme each year taking into account the movements of the SSAIP. The SSAIP has a weighting system which truthfully presents CSSA recipients' expenditures on individual categories of goods and services as a proportion of their total expenditures. It is compiled using data obtained from the Household Expenditure Survey on CSSA Households. By applying these weights in the calculation of the SSAIP, it can reflect more accurately the impact of price changes on CSSA recipients. The weighting system is updated every five years to capture the latest expenditure pattern of CSSA recipients. In the latest updating exercise, 2014/15 was adopted as the new base year.

10. The special grants and financial limits under the CSSA and SSA Schemes (including the maximum rates of the rent allowance under the CSSA Scheme) are adjusted annually under delegated authority in accordance with changes to the relevant price indices.

² The rate of Higher DA is set at twice the amount of that of Normal DA and will be \$3,390 per month after the adjustment (i.e. \$1,695 x 2)

The Comprehensive Social Security Assistance Scheme and Social Security Allowance Scheme

Introduction

The Comprehensive Social Security Assistance (CSSA) Scheme provides a safety net for those who cannot support themselves financially to help them meet their basic needs. The Social Security Allowance (SSA) Scheme provides monthly allowance to severely-disabled and elderly persons to help them meet special needs arising from severe disabilities or old age. Both Schemes are non-contributory. A person may apply for either assistance under the CSSA Scheme or one of the allowances under the SSA Scheme.

Eligibility and Payment

The CSSA Scheme

2. The amount of assistance under the CSSA Scheme is determined by the monthly income and recognised needs of a household. The difference between the total assessable monthly income of a household and its total monthly needs as recognised under the CSSA Scheme in terms of various types of payment will be the amount of assistance payable. When assessing a household's monthly income, earnings from employment and training/retraining allowance can be disregarded up to a prescribed level so as to provide an incentive to work and training/retraining.

3. CSSA payments can be broadly classified into three types –

- (a) standard rates;
- (b) supplements; and
- (c) special grants.

Under the CSSA Scheme, different standard rates are applicable to different categories of recipients. In addition, the Scheme provides various supplements to recipients with special needs, such as elderly persons, persons with disabilities or in ill health and single parents. A wide range of non-standard payments in the form of special grants are also payable to meet expenses such as rent, school fees and other educational expenses, medically recommended diets, spectacles and dentures, etc.

4. Elderly persons aged 60 or above who have been in receipt of CSSA continuously for not less than 12 months may join the Portable CSSA Scheme, whereby they will continue to receive their monthly standard rates and annual long-term supplement should they choose to take up permanent residence in Guangdong (GD) or Fujian.

5. As at the end of October 2016, there were 350 279 recipients under the CSSA Scheme. The estimated expenditure of CSSA for 2016-17 is \$21.4 billion¹, representing 6.1% of the estimated total recurrent government expenditure.

The SSA Scheme

6. Four allowances are payable on a monthly basis under the SSA Scheme as follows –

- (a) Old Age Allowance (OAA) (\$1,290): non-means-tested allowance for elderly persons aged 70 or above².
- (b) Old Age Living Allowance (OALA) (\$2,495): means-tested allowance for elderly persons aged 65 or above who are in need of financial support.
- (c) Normal Disability Allowance (DA) (\$1,650): non-means-tested allowance for severely-disabled persons.
- (d) Higher DA (\$3,300): non-means-tested allowance for severely-disabled persons who require constant attendance from others in their daily life, but are not receiving such care in residential institutions subsidised by the government (including subsidised places in subvented/contract homes and residential care homes under various bought place schemes) or all public hospitals and institutions under the Hospital Authority, or boarding in special schools under the Education Bureau.

/7.

¹ The figure for 2016-17 is the approved provision in the Budget for that year, not including the one-off supplementary provision approved by FC on 22 April 2016 for one additional month of standard rate payment to CSSA recipients.

² Same monthly rate is provided under the GD Scheme. The GD Scheme was implemented on 1 October 2013 to provide OAA for eligible Hong Kong elderly persons aged 65 or above who choose to reside in GD. Applicants aged between 65 to 69 have to meet the prescribed income and asset limits.

7. As at the end of October 2016, there were 828 515 recipients under the SSA Scheme. Of these recipients, 248 035 were OAA recipients, 440 452 were OALA recipients and 140 028 were DA recipients. The estimated expenditures on OAA, OALA and DA for 2016-17 are \$3.7 billion, \$13.5 billion and \$3.4 billion respectively³, representing 1.1%, 3.9% and 1.0% of the estimated total recurrent government expenditure.

³ The figures for 2016-17 are the approved provisions in the Budget for that year, not including the one-off supplementary provision approved by FC on 22 April 2016 for one additional month of allowance to SSA recipients.
