

Report on Internal Review of Remunerations of Senior Executives of Government-Funded Bodies

Introduction

In January 2002, the Chief Secretary for Administration announced that the Government would embark on a review of remunerations of senior staff of government-funded bodies. The review was conducted internally within the Administration, as a separate exercise from the consultancy study of remunerations of senior executives of ten selected statutory and other bodies. Findings of the consultancy study were reported to the Legislative Council in mid 2002. This report sets out the review results arising from the two-stage review of government-funded bodies.

Objective

2. The internal review aims to ascertain whether the number, ranking and remuneration packages of senior executives of major government-funded bodies are appropriate in present day circumstances. A Steering Committee, chaired by the Chief Secretary for Administration, was set up to oversee the exercise. The main tasks of the Steering Committee include:

- (a) to determine whether the ranking and remuneration packages of the senior executives under study are appropriate in present day circumstances, drawing reference to the original policy considerations when these posts were first established;
- (b) to determine whether the number of staff employed at the top three tiers of the bodies under study are excessive; and
- (c) to determine the strategy to redress identified discrepancies with established policies or guidelines, or impropriety such as over-payment vis-à-vis comparable civil service ranks or market practices, as the case may be.

Review Approach

3. The review adopted a two-stage approach. At Stage I of the exercise, relevant Bureaux conducted a brief examination of the staffing and funding positions of all government-funded bodies under their purview. Based on the information collected by the Bureaux, the Steering Committee decided on the bodies to be selected for detailed examination under Stage II of the exercise. For each of these selected bodies, the responsible Bureau conducted in-depth review and made recommendations related to the remuneration arrangements for its top three-tier executives.

Stage I of Review

4. Over 300 bodies or groups of bodies were examined by relevant Bureaux under Stage I of the review. The full list of these bodies is at Annex A. The Steering Committee considered the Bureaux' returns on these bodies and decided that the following types of organizations should be excluded from further stages of the exercise:

- (a) 194 bodies or groups of bodies (Annex B) that are serviced entirely by civil servants and have not employed their own executive staff e.g. appeal boards and advisory committees;
- (b) 32 bodies or group of bodies (Annex C) that have not received any form of Government funding e.g. trust funds and registration boards;
- (c) 41 bodies or groups of bodies (Annex D) covering -
 - (i) bodies that receive only limited Government funds as subsidy for their administrative expenses and/or secretarial service e.g. village offices and mutual aid committees;
 - (ii) cases where Government funds are for 'procuring' specified services or activities e.g. management of Mai

Po by the World Wide Fund for Nature and procurement of training places from the Outward Bound Trust;

(iii) organizations that are subject to special funding and/or remuneration policies or are already under separate review, hence rendering a general review not appropriate e.g. the UGC-funded institutions and those schools receiving recurrent funding under specific rules;

(iv) cases where Government funds represent not more than 50% of their operating and staff costs e.g. the Family Planning Association and uniform groups; and

(d) 15 bodies or groups of bodies (Annex E) that have received only capital or other non-recurrent financial assistance, i.e. without any recurrent subvention from the Government e.g. the Ocean Park Corporation Board and the Hong Kong Arts Centre.

5. The Steering Committee took account of the outcome of the Stage I exercise and decided that the 20 subvented bodies at Annex F should be subject to detailed examination under the Stage II review. These 20 bodies have:

(a) received and relied on Government recurrent funding as their main source of income, i.e. the Government's recurrent provisions amount to more than 50% of their operating and staff costs; and

(b) employed their own executive staff and derived separate remuneration packages for their senior executives.

Stage II of Review

6. During Stage II of the review, for each of the 20 selected bodies, the responsible Director of Bureau was required to:

(a) examine the remuneration packages of senior executives at the

top three tiers; and

- (b) provide detailed information and assessment on the appropriateness of the remuneration policy and arrangements for its senior executives in present day circumstances.

The Bureaux' returns provided the basis for the Steering Committee to determine whether the number, ranking and remuneration packages of senior executives in these bodies were appropriate, and whether actions should be taken to rectify irregularities so identified.

Review Findings

7. The 20 subvented bodies under the Stage II review were found to be employing over 59,000 staff, including over 190 executives at the top three tiers of their respective organizational structure. Having considered the detailed submissions from the relevant Directors of Bureaux, the Steering Committee agreed on the following broad findings for the 20 bodies:

- Group I No change to the remuneration packages or senior management establishment (13 bodies)
- Group II Further separate reviews to be carried out (three bodies)
- Group III Changes should be made to the remuneration packages or senior management establishment (four bodies)

(a) Group Bodies – No Change

8. This group comprises 13 subvented bodies including: the Ombudsman, Duty Lawyer Service, Consumer Council, Guardianship Board, Privacy Commissioner for Personal Data, HK Academy for Performing Arts, HK Council on Smoking and Health, Society for the Aid and Rehabilitation of Drug Abusers, HK Applied Science & Technology Research Institute Co. Ltd., HK Jockey Club Institute of Chinese Medicine Ltd., HK Chinese Orchestra Ltd., HK Dance Company Ltd. and HK Repertory Ltd.

9. The Steering Committee accepted the recommendations of the

responsible Directors of Bureaux (and the Director of Administration in the case of the Ombudsman and Duty Lawyer Service) that the establishment, ranking and remuneration packages of senior executives in the 13 bodies should be appropriate in present day circumstances. The Steering Committee concluded that no change to the current remuneration arrangements for these bodies should be necessary in the context of the internal review.

(b) Group II organizations – Further Separate Reviews

10. Three subvented bodies fall under this group: the Vocational Training Council (VTC), Employees Retraining Board (ERB) and Equal Opportunities Commission (EOC).

11. The Steering Committee noted that the existing remuneration packages of the senior staff in the Vocational Training Council and Employees Retraining Board comply with the ‘no better than’ principle under the existing subvention guideline. In anticipation of the proposed establishment of a Manpower Development Committee (MDC), originally scheduled for 2003, the Steering Committee accepted the Secretary for Education and Manpower (SEM)’s recommendation that the organizational set-up and the staff remuneration packages for these two bodies should be reviewed in tandem. With the recent establishment of the MDC in late 2002, the SEM would conduct the review accordingly, having regard to the progress of the taking over of the functions of the two bodies by the MDC.

12. The Secretary for Home Affairs (SHA) has examined the remuneration of the top three-tier executives of the Equal Opportunities Commission (EOC) and confirmed that the arrangements for staff at the second and third tiers were in order. However, the SHA has decided to consider the remuneration arrangement for the Chairperson of the Commission in the light of the outcome of the current proposal to legislate against racial discrimination, as such legislation may have a significant impact on the work of the Chairperson.

(c) Group III Organizations – Changes to be Made

13. There are four subvented bodies in this group: the Hong Kong Philharmonic Society Ltd. (HKPSL), Hong Kong Arts Development Council (HKADC), Hong Kong Sports Development Board (SDB) and Hospital Authority (HA). The Steering Committee accepted the recommendations of the relevant Directors of Bureaux as summarized below:

(i) HKPSL

14. The Steering Committee endorsed the SHA's recommendation of downgrading three of its four Assistant General Manager posts (equivalent to MPS point 33-43) at the second tier to the third tier as Senior Managers (MPS point 27-32), leaving only one Assistant General Manager as deputy to the General Manager. This change would bring the management structure of the company more in line with three of the other performing groups. The SHA would follow up the matter.

(ii) HKADC

15. Although the full cost of the remuneration package of the Chief Executive post was not higher than that of a D2 officer, the Steering Committee endorsed the SHA's recommendation that the Council should be asked to split the salary component into base salary, cash allowance and gratuity in the next contract of the Chief Executive. Subsequently, the Council agreed and the salary component has been split into base salary, cash allowance and gratuity in the new contract of the Chief Executive.

(iii) SDB

16. The Steering Committee noted the SHA's findings regarding the remuneration packages of four existing senior staff posts. The SHA would follow up the matter and modify the remuneration packages for the senior posts as appropriate.

(iv) HA

17. The Steering Committee noted the decision of the Finance Committee in 1991 regarding the remuneration of staff of the HA and the relevant provisions in the HA Ordinance. The Committee also noted the findings of the Secretary for Health, Welfare and Food (SHWF) regarding the existing remuneration packages of the HA and its proposal for changes. The Steering Committee endorsed the SHWF's view that the new guidelines

which the Steering Committee has derived separately for the control and monitoring of remunerations of senior staff of subvented bodies should not apply to the HA.

Conclusion

18. With the support of the relevant Directors of Bureaux, the Steering Committee completed the internal review of remunerations of senior executives of government-funded bodies in end 2002. For the majority of the bodies reviewed, the number, ranking and remuneration packages of their senior executives were found to be in order. For those cases where further reviews should be conducted or changes have been proposed, the responsible Directors of Bureaux undertook to take follow-up actions in a timely manner.
