 主旨: RE: 16/12 LegCo Select Committee - f/u action

Dear Winnie,

For the questions raised during the hearing of LegCo Select Committee on the 16/12, I herewith feedback the part concerning ICU :

1) The total number of N95 utilization of ICU in the year 2001 was 940 pieces. The detail was :

Model	Quantity
Moldex 1502 (M)	240 p.c.
Moldex 1501 (S)	240 p.c.
Moldex 1511 (XS)	420 p.c.
3-M 1860 (S)	40 p.c.

- 2) Dr. Yip and the 3 experts came at around 6 pm on the 24 Feb. 2002. I will send you the photocopy of the informal record.
- 3) According to my staff, patient's son and nephew accompanied him when he succumbed. However, they didn't enter the isolation room.
- 4) There was no record of the special meeting held on 3.3.2003.

Please feel free to contact me again if further clarification required.

Regards,

Watt

 Subject: 16/12 LegCo Select Committee - f/u action

I jot down below some points for your follow up:

Dr HO

- 1 audit report on waste management

Dr WATT:

- 2 N95 utilization at ICU
- 3 the informal record book 口水簿 regarding 3 中山 visitors. What is the time when Dr YIP and the 3 中山 visitors came?
- 4 anybody accompanied Prof LIU when he succumbed?
- 5 3.3.03 meeting notes/record at ICU was asked for
- 6
- 7 should be 吳松海 that we need to feedback
