<b>Subject</b>	<b>Date of meeting</b>	<b>Follow-up action required</b>	<b>Administration's response</b>
1. Regulation and control of pharmaceutical products in Hong Kong	31 March 2009	The Administration was requested to provide the revised checklist used by the inspectors of the Department of Health ("DH") when conducting inspections on pharmaceutical manufacturers once they were finalised.	The Review Committee on Regulation of Pharmaceutical Products in Hong Kong recommended DH in January 2010 to upgrade Hong Kong's current Good Manufacturing Practices ("GMP") licensing standards by a phased approach to the international standards promulgated by the World Health Organization and Pharmaceutical Inspection Co-operation Scheme ("PIC/S"). On DH's invitation, PIC/S conducted a gap assessment between the standards of GMP and PIC/S in end-2010. DH procured a consultancy service in July 2012 for advice on upgrading the current GMP licensing standards to PIC/S compliant licensing standards. It is expected that the consultancy will be completed in 2014. The inspection checklist would be revised in accordance with the advice of the consultant and submitted to the Panel once available.
