

Panel on Health Services**List of follow-up actions**

(Position as at 13 November 2012)

Subject	Date of meeting	Follow-up action required	Administration's response
1. Regulation and control of pharmaceutical products in Hong Kong	31 March 2009	The Administration was requested to provide the revised checklist used by the inspectors of the Department of Health ("DH") when conducting inspections on pharmaceutical manufacturers once they were finalised.	The Review Committee on Regulation of Pharmaceutical Products in Hong Kong recommended DH in January 2010 to upgrade Hong Kong's current Good Manufacturing Practices ("GMP") licensing standards by a phased approach to the international standards promulgated by the World Health Organization and Pharmaceutical Inspection Co-operation Scheme ("PIC/S"). On DH's invitation, PIC/S conducted a gap assessment between the standards of GMP and PIC/S in end-2010. DH procured a consultancy service in July 2012 for advice on upgrading the current GMP licensing standards to PIC/S compliant licensing standards. It is expected that the consultancy will be completed in 2014. The inspection checklist would be revised in accordance with the advice of the consultant and submitted to the Panel once available.

Subject	Date of meeting	Follow-up action required	Administration's response
2. Creation of new directorate posts in DH	11 April 2011	The Administration was requested to report on a quarterly or bi-annual basis the progress in taking forward the recommendations of the Review Committee on the Regulation of Pharmaceutical Products in Hong Kong after the establishment of the Office on Drugs.	<p>The Assistant Director (Drug) and one Chief Pharmacist posts were created on 1 and 14 September 2011 respectively for the set up of the Drug Office to take forward the recommendations of the Review Committee on the Regulation of Pharmaceutical Products in Hong Kong.</p> <p>The Administration will report the progress on the recommendations in due course.</p>
3. Pilot project on enhancing radiological investigation services through collaboration with the private sector	12 December 2011	The Administration was requested to provide data on the average waiting time of cancer patients for radiological investigation services before and six months after implementation of the pilot project.
