Subject: Subcommittee on Disability Discrimination Ordinance (Amendment of Schedule 5) Notice 2021

---

Sorry, I am sending this to you because the LegCo email address provided did not work. I support the present debate and proposed amendments. I'm glad to see everyone is attentive to the issues.

At the same time, please note that disability discrimination can be significantly improved on if the Legislative Council were ever to consider fixing the sidewalks so that they are safer and more convenient for people with disabilities, including those who ride wheelchairs.

Regards,  
Gillis Heller
