27 March 2024

Dear Ms. LAU,

**Legislative Council Panel on Transport
Meeting on 16 February 2024**

**Highways Department's emergency recovery works in response to
road-related incidents under extreme weather**

Supplementary Information

At the meeting of the Panel on Transport held on 16 February 2024, Members asked the Government to provide the list of flooding blackspots.

According to the information provided by the Drainage Services Department (DSD), there are currently four flooding blackspots¹ in Hong Kong, namely Shek Wu Wai in San Tin, Yuen Long; Lam Tsuen Valley Basin in Tai Po; Chatham Road South (Granville Road to Austin Avenue) in Yau Tsim Mong and Pok Fu Lam Village in the Southern District.

¹ The flooding blackspots are compiled based on drainage capacity of stormwater drainage system, past flooding records, complaints on flooding received and flood protection standards at the relevant location.

In addition, according to DSD's observation on flooding cases, there are about 220 locations in various districts in Hong Kong that are susceptible to flooding due to obstruction by garbage or dead leaves. The list of locations (as at the end of 2023) is at Annex. DSD will update the list as appropriate.

The Highways Department will continue to maintain close communication and cooperation with DSD and other relevant departments to strengthen the inspection and cleaning works of public road drainage systems.

Yours sincerely

(Ernest CHOY)

for Secretary for Transport and Logistics

Encl.
